

Sensational Artists

We are excited to announce the start of our newest 8 week program. This fall we will be offering SENSATIONAL Artists where the emphasis is on the process of explorative art making.

The class will be set up to offer hands-on, sensory-based art experiences that ignite the imagination, curiosity and creativity. Students will explore different art mediums that will help stretch their tolerances to different textures, fine motor skills and tactile input. Let us help your child discover their love of ART!

INFINITE RESOURCES INC.
